Dear Customer,

MUTOH INDUSTRIES

MSM (MUTOH Status Monitor) Version 8.12 Released

We are pleased to announce today that MSM Version 8.12 is now available to download from MUTOH Club on the MUTOH website.

Major updates are as follows.

- Support for new model: XpertJet 1341WR Pro
- Support for automatic saving of print history

The MSM Version 8.12 is available to retrieve automatically the printer's print history and updates the CSV file.

Various printer management tools can utilize this CSV file to automatically update* the printer's print history.

*This supports Industry 4.0 compliance depending on the legal system of each country.
